THE LOUDEST KICKERS

It is an old established rule that whatever everybody's business is nobody's business and as long as everybody pays no attention to everybody's business, there is no reason to be high tailed up in indignation in government and all of lesser attention in civil.

The fellow who kicks the loudest, about the way things are being run, is always the first volunteer to quit, or to offer a constructive suggestion.

Then there is the type of citizen who

Other types we see daily, engaged in this or that hobby, wholly oblivious of what is going on about them. They never give a thought to the betterment of this or that community.

The public good deserves consideration from every individual. Everyone should make it a point to reserve a little time for that duty and never refuse when he is called upon to do something that we don't have to do, but which will be for the betterment of the whole community.

Write only one word, even though it contains a single letter, in each space. Cost of ad, for one, two and three weeks will be found to right of last line on which writing ends.					COST
